

# ***SAFETY FIRST***

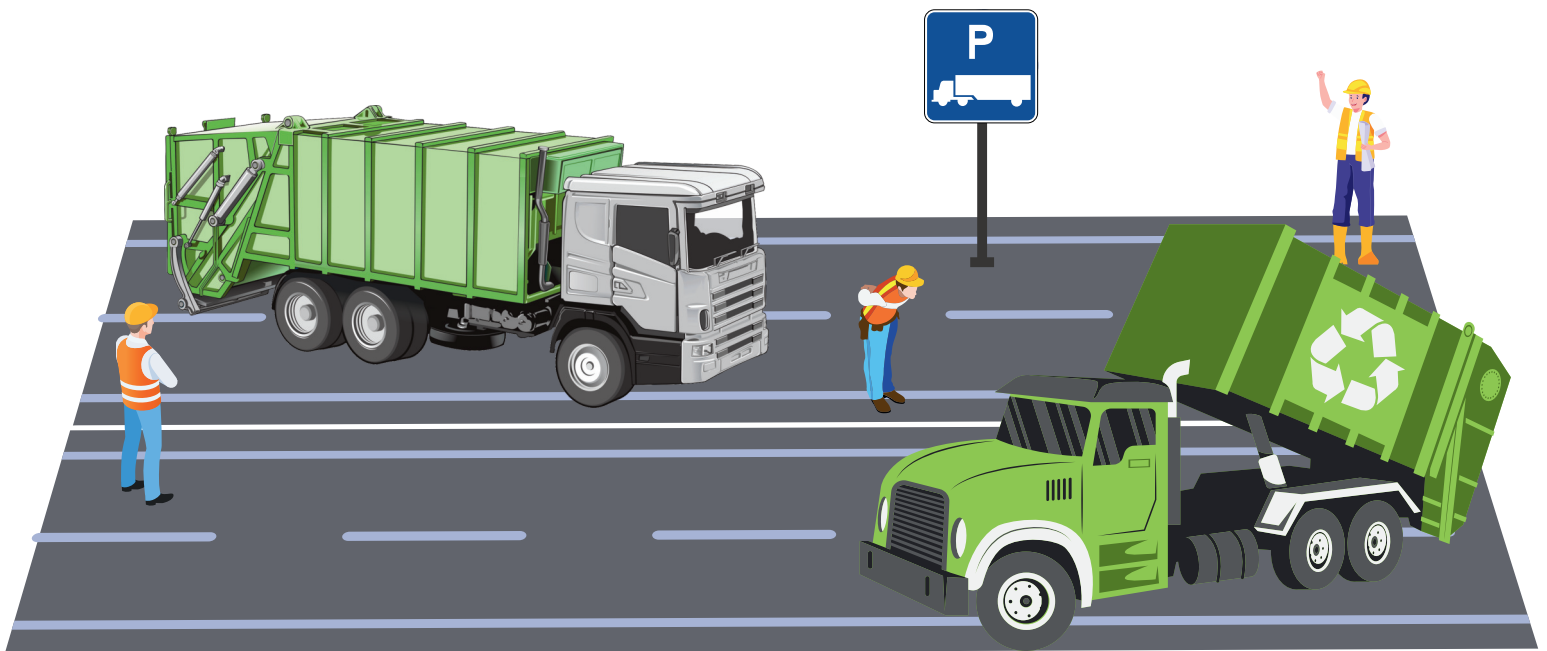

## **Arriving at a Destination**

© SWANA, 2024

Safety is just as critical when a truck reaches its destination as it is on the open road. Read the following tips for ensuring your safety when arriving at your destination in a heavy truck:

- When possible, park on level ground and as close to the receiving area as you can.
- Be aware of the location of other vehicles and workers on foot.
- Make sure the vehicle is fully in park before exiting.
- Stand clear when unloading to avoid injury from shifting materials.

By adhering to these safety guidelines, waste and resource management employees can reduce the risk of accidents and ensure the safety of drivers and workers alike. A proactive approach to safety not only protects lives but also fosters a culture of responsibility and care in the workplace.
